The screenshot shows the GWAVA Reveal application window. The 'Export messages' button in the toolbar is highlighted with a red circle. A red arrow points from this button to a folder named 'andy' in a Windows Explorer window. The Explorer window displays a file structure with folders such as 'Work In Progress', '文件', '信箱', '檔案櫃', '已傳遞', '行事曆', '核對清單', and '聯絡人'. The GWAVA Reveal interface includes a menu bar (File, Execute, Settings, Administrator, Help), a toolbar with icons for connecting to systems, searching, exporting, printing, and proxy reports, and a main area for mailbox management.
